

GeoTrax: Mobile Fleet Management App

Break the Chain to Your Desk | Easily Track & Manage Your Fleet on the Go!

GeoTrax is a user-friendly mobile application for iOS and Android that provides Fleet Managers with a simple and quick way to manage their fleet on the fly. Integrated with the Geotab telematics solution, GeoTrax displays asset location, trip history, fuel usage, driving exceptions and diagnostics all in one application.

Optimize Fleet Management

Fleet managers and business owners are constantly on the go. With this app access all your fleet information on the go to ensure everything is running smoothly.

Marketable Native Application

GeoTrax is available for download from Apple Store for iOS and Google Play store for Android. It can be used on both smartphones and tablets.

Add and Update Driver Alerts

Add audible driver coaching alerts as required without having to sit in front of a computer.

Quickly Address Vehicle Faults

Access vehicle faults and address them quickly to reduce breakdowns and downtime.
