ZenduCAM LITE

Intelligent Dash Camera Series

Affordable and Powered Dash Camera Series with
Multi Channel Configuration

OVERVIEW

The **ZenduCAM LITE** dash camera series are **ZenduiT's** compact and powerful dash cameras that leverages the power of GPS and real-time risk detection technology to enable complete visibility

This innovative dash camera series utilizes real-time risk detection and GPS tracking technology to seamlessly track their fleets and detect critical events such as harsh acceleration and deceleration, sharp turns, and accidents events.

SINGLE AND DUAL CHANNEL CAMERA CONFIGURATION

Full HD front and rear-facing
dash camera

BUILT-IN GPS AND RISK DETECTION

For real-time event
detection and vehicle
location

INBUILT SCREEN AND SPEAKER

For in-cabin feedback
in real-time

EASY INSTALLATION

Plug in, play and go in
15 minutes

FEATURE HIGHLIGHTS

HD Lens with Multi Channel and Wide Range capability

ZenduCAM LITE dash camera series comes with both Single and Dual channel configuration and is equipped with 1080P front and rear camera lens. They supports recording of HD footage with Wide Dynamic Range to ensure that there are no blind spots in the vision and fleet managers can have complete visibility of events while the fleets are on the road.

Real-Time Reporting of Critical Events

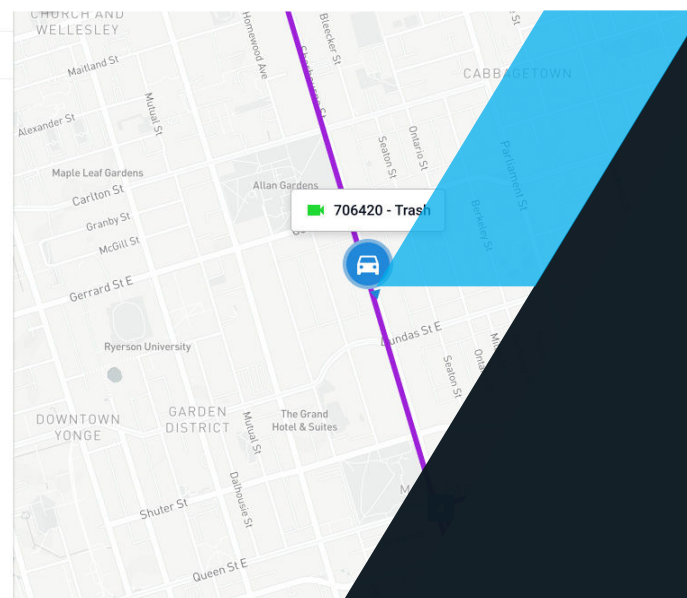

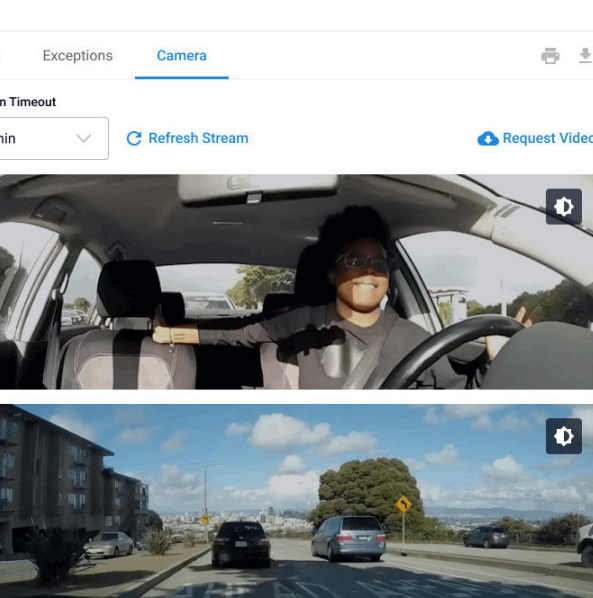

The **ZenduCAM LITE** dash camera series has built-in GPS and Risk Detection technology to detect and record high-risk events such as sudden acceleration, harsh braking, collisions, and other key details, which helps fleet owners investigate events, potentially exonerate drivers from false claims, and reduce hefty insurance premiums.

FEATURE HIGHLIGHTS

Inbuilt Driver Communication and Coaching

The **ZenduCAM LITE** dash camera series has a built-in mic and speaker with echo and noise-canceling features, which help fleet managers establish crystal-clear communication with their drivers while they are behind the wheel. This process enables managers to provide instant audio-visual feedback in the event of a triggered alert and reminds drivers to adhere to custom rules and compliance regulations while on the road.

24x7 Audio and Video Capture

The **ZenduCAM LITE** dash camera series has built-in Wi-Fi and cellular capabilities that empower fleet operators to access real-time or recorded video footage of their vehicles from remote locations. Connectivity helps managers keep track of their fleet operations and ensure compliance while in transit.

PRODUCT HIGHLIGHTS

Easy Installation without Expert Supervision

The **ZenduCAM LITE** dash camera series has a rugged and compact exterior shell with plug-and-play installation capabilities that can have fleet vehicles back on the road in as little as 15 minutes. These dash cameras provides seamless 3rd party sensor, HD monitor and rear camera integration to establish a powerful and cost-effective telematics solution.

DYNAMIC INTEGRATION

zenduCAM

• Easily view road and driver-facing footage in real-time through ZenduCAM desktop or mobile application

• ZenduCAM rewind feature to investigate the past complaints or search for a specific event within a recorded footage

• ZenduCAM predefined rules to trigger and analyze critical events

• Take advantage of ZenduCAM's unlimited cloud storage to record uninterrupted events from dash camera
